The Mystique of The Mughals

"Canvas aims to nurture the art of hand-painting, encourage people to value handicraft and traditional techniques of intricate design and spread joy through the verve of colours."

Our ambition is to revive these ethnic styles by transforming it into contemporary forms. Some designs are digitalized to make it commercial. Our footwear is created by Indian artisans who give their time and effort into the making of each pair. We want to pursue and nurture The Indian art so it thrives in new, enchanting forms.
